Seventieth session  
Agenda item 17  
Information and communications technologies for development

**Draft resolution submitted by the President of the General Assembly**

**Outcome document of the high-level meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society**

*The General Assembly,*

Adopts the following outcome document of the high-level meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society at its seventieth session:

**Outcome document of the high-level meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society**

We, the Ministers and heads of delegations participating in the high-level plenary meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society, held in New York on 15 and 16 December 2015,

Recalling the request in paragraph 111 of the Tunis Agenda for the Information Society<sup>1</sup> that the General Assembly undertake an overall review of the implementation of the outcomes of the World Summit on the Information Society in 2015, and in this regard reaffirming the role of the General Assembly in this process, and reaffirming also that the Assembly, in its resolution 68/502 of 31 July 2014, decided that the overall review would be concluded by a two-day high-level meeting of the Assembly, preceded by an intergovernmental preparatory process that also meaningfully takes into account inputs from all relevant stakeholders,

Welcoming the constructive and diverse inputs from Governments, the private sector, civil society, international organizations, the technical and academic communities and all other relevant stakeholders in taking stock of the progress made in the implementation of the outcomes of the World Summit on the

# WSIS Forum beyond 2015

Mr Ban Ki-moon, UN SG  
UNGA HLM, 15 Dec 2015

*We will strengthen the WSIS Forum as a key platform for discussing the role of ICTs as a means of implementation of the SDGs and targets.*

*Beyond 2015, following the multistakeholder approach, the WSIS Forum, will build upon the outcomes of the WSIS+10 Review and the 2030 Agenda for Sustainable Development. In this regard the WSIS-SDG Matrix developed by UN WSIS Action line Facilitators will serve as the mechanism to map, analyze and coordinate the implementation of ICTs as enablers and accelerators of the SDGs.*

Mr Houlin Zhao, ITU  
Secretary-General

UNITED NATIONS SYSTEM  
Chief Executives Board for Coordination

**Chief Executives Board Joint Statement to the United Nations General Assembly on the Overall Review of the Implementation of World Summit on the Information Society Outcomes**

We, the Chief Executives of organizations of the United Nations system, witnessing the momentous events taking place, with the adoption of the Sustainable Development Goals and the ongoing United Nations General Assembly Overall Review of the World Summit on the Information Society (WSIS), held in two phases in Geneva (2003) and Tunis (2005), reaffirm the important role of information and communications technologies (ICTs) as a critical enabler for advancing the globally agreed development goals, in particular in the context of the new development framework in resolution 70/1, entitled "Transforming our world: the 2030 Agenda for Sustainable Development", which acknowledges that "the spread of information and communications technology and global interconnectedness has great potential to accelerate human progress... and to develop knowledge societies" and contains targets on use of ICTs for the empowerment of women, for education and on access to ICTs for least developed countries (LDCs).

Though access to advanced technologies has grown at a fast pace since the celebration of WSIS, the impressive gains observed during the era of the Millennium Development Goals are still hampered by existing gaps in ICT access – between and within countries, between urban and rural settings, among men and women, and boys and girls. A major digital divide is still in place, with more people offline than online and particularly poor access in vulnerable developing nations, which include LDCs, landlocked developing countries (LLDCs) and small island developing States (SIDS). The WSIS vision remains valid and we therefore commit ourselves collectively to reinvigorate collaborative action to harness the power of new technologies in promoting sustainable development and making the goal of universal and affordable access to ICTs and knowledge a reality. This should include also a new focus on relevant content, skills, capacity building, and an enabling environment, including multilingualism, to empower the implementation of the sustainable development goals, as well as to further freedom of expression and to promote cultural diversity on the basis of human rights.

In the national development process, use of ICTs need to be systematically integrated into development plans. Renewed efforts should be made to ensure that the enabling ICT dimension is adequately reflected in United Nations Development Assistance Frameworks and equivalent documents as well as in poverty reduction strategies.

Coherence across the United Nations system in the implementation of multiple goals and commitments is essential. In this regard, we reaffirm the role of United Nations Group on the Information Society (UNGIS)<sup>1</sup> as the inter-agency coordination mechanism for issues related to the implementation of the outcomes of the WSIS and call on UNGIS to include in its strategic priority the alignment between WSIS implementation and the implementation of the Sustainable Development Goals.

We also recognize the WSIS Forum has evolved as an efficient mechanism for multi-stakeholder implementation of WSIS action lines and cross-cutting commitments on gender equality, information exchange, knowledge creation and the sharing of best practices. Beyond 2015, it can serve as a key forum for discussing the role of ICTs as a means of implementation of the Sustainable Development Goals and targets, with due regard to the global mechanism for follow-up and review of the implementation of the 2030 Agenda for Sustainable Development, as set out in General Assembly resolution A/70/L.

As Chief Executives of the United Nations system, we look forward to the successful outcomes of United Nations General Assembly's Overall Review of the Implementation of WSIS Outcomes and we pledge our collective support for their implementation.

In my view, the role of education is to promote sustainability. So what is this education for sustainability? It is a lifelong process of change in behaviour as a result of experience(s) that could lead to an informed and involved citizenry having the creative problem-solving skills, scientific and social literacy and commitment to engage in responsible individual and cooperative actions. These actions will help ensure an environmentally sound and economically prosperous future.

# Hack for Health: *WSIS Action Lines* *advancing the implementation of SDGs*

Presented by: WSIS Forum, organized in association with ITU and IEEE in collaboration with *Be He@lthy, Be Mobile* (ITU-WHO)

**Challenge:** Develop an innovative digital solution to reduce exposure to common risk factors for non-communicable diseases in smart, healthy cities in middle-and lower-income countries. This solution can be a mobile application, web application, computer game, game for mobile devices, or other visualization tools or technology applications

## ***Recruitment Criteria***

- The WSIS Hack for Humanity is open to individuals pursuing an undergraduate or a post-graduate degrees with specific emphasis on health, science, computer science, design, engineering, ICT and other related fields
- Teams should consist of a minimum of three people and maximum of seven people.
- Teams should promote gender equality
- As possible, the teams should encompass both technical and functional competencies
- Age group 18-35

# United Nations Group on the Information Society

- *UN Chief Executives Group consisting of 30 UN Agencies*
- *UNGIS' objective is to develop extensive collaboration and partnerships among the CEB members in order to contribute to the achievement of the WSIS objectives, to help to maintain ICT-related issues as well as science and technology at the top of the UN Agenda and finally to mainstream ICT for Development issues in the mandate of CEB members*

Currently following up on the Para 12

# WSIS Stocktaking: Call for Update and New Entries

WSIS Stocktaking database reached new records with **8.000 plus entries** and a growing **community of 200.000 stakeholders**

New Call for Submissions has been released in July 2016, and the newly submitted activities will be reflected in the **WSIS Stocktaking Report 2017**, which will be released at the WSIS Forum 2017.

NEW WSIS Stocktaking product are the Regional Stocktaking Reports (2014-2016), which will be released in September 2016.

[www.wsis.org/stocktaking](http://www.wsis.org/stocktaking)

# WSIS Stocktaking Process

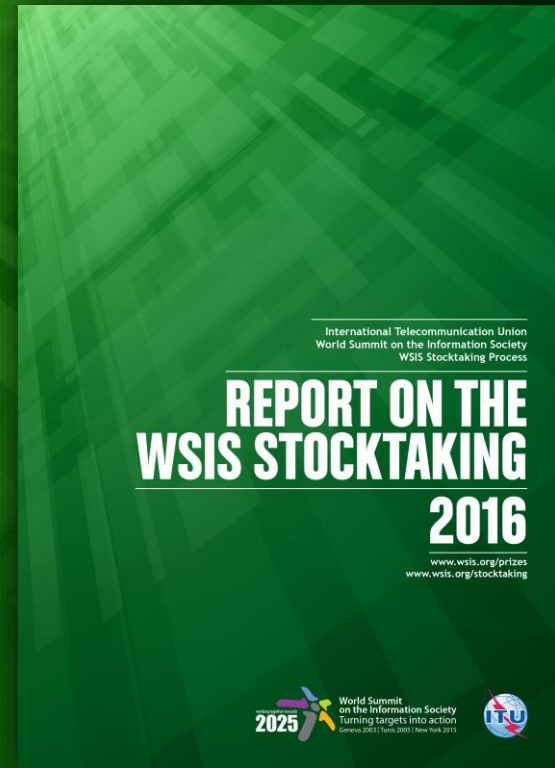

The Call for the WSIS Stocktaking Report 2017 is ongoing

Submit your ICT-related projects and initiatives and share best practices of implementing WSIS Action Lines and advancing to SDGs

Submitted activities will be reflected in the WSIS Stocktaking Report 2017 which will be released at WSIS Forum 2017 (12-16 June 2017). **The deadline for submission will be 1 March 2017.** We invite all to continue following WSIS Flash and WSIS social media channels, and contribute to WSIS Stocktaking process. WSIS Stocktaking database reached new records **with 8.000 plus entries** and a growing **community of 200.000** stakeholders.

Call for Update and New Entries – Submit at:

[www.wsis.org/stocktaking](http://www.wsis.org/stocktaking)

## NEW WSIS Stocktaking products: the Regional Stocktaking Reports (2014-2016)

- Regional WSIS Stocktaking Report in **CIS Region** (2014-2016) was launched during Regional Workshop on Resilient ICT Connectivity for the Knowledge Economy, SDGs and the WSIS Goals, 20-21 September 2016, Almaty, Kazakhstan, organized by UNESCAP and UNECE
- Regional WSIS Stocktaking Report in the **Asia and Pacific** (2014-2016) was launched during Regional Review of the World Summit on the Information Society Action Line Implementation, 4 October 2016, Bangkok, Thailand, organized by UNESCAP
- Regional WSIS Stocktaking Report in the **Africa Region** (2014-2016) was launched at the Africa Regional WSIS Follow-up and Annual Review & Expert Group Meeting on Emerging Issues in ICT – 2016, 22-24 November 2016, Addis Ababa, Ethiopia, organized by UNECA
- Regional WSIS Stocktaking Report in the **Americas Region** (2014-2016) was launched at the Open Forum session on the WSIS Action Lines supporting the implementation of the SDGs - WSIS Forum: Information and Knowledge Societies for SDGs during the IGF Forum, 6-9 December 2016, Guadalajara, Mexico
- Regional WSIS Stocktaking Report in the **Arab States Region** (2014-2016) was launched during the Regional Development Forum for Arab States held in Khartoum, Sudan on 29 January 2017
- Regional WSIS Stocktaking Report in **Europe Region** (2014-2016) will soon be launched
